Companion Systems Announces Opening of New Manufacturing Facility

November 11, 2010, NORTH SALT LAKE, UT –Companion Systems, the leading provider of ATM surround, kiosk and enclosure solutions for the financial services industry, has established a new manufacturing facility in the Southeast.

The new facility located in South Carolina will provide Companion Systems' customers in the East with ATM signage products in a more timely and cost-efficient manner.

The South Carolina manufacturing plant has capabilities comparable to the Utah facility including signage, metal fabrication and millwork assembly; it will also serve as a hub for field service operations in the East. This will give Companion Systems an additional 30,000 square feet making its total manufacturing area approximately 130,000 square feet.

"We are quite excited about the new manufacturing facility in the East," said Al Tiley, President and CEO of Companion Systems. "This facility along with the Utah facility will continue to provide the same quality ATM signage environments Companion Systems' customers have known for the last 30 years. Faster delivery times, increased capacity and less expensive freight prices will be a win-win for our customers throughout the U.S."

Companion Systems administrative offices and main operations will continue to be based out of its Utah headquarters.

About Companion Systems

Companion Systems has been the leading provider of ATM surround, kiosk, enclosure and signage solutions for the financial services industry since 1980. By specializing in designing and manufacturing ATM branding environments, Companion Systems has developed a keen understanding of how to elevate an institution's brand and customer experience through ATM environments. Companion Systems six-acre campus consists of seven buildings and over 100,000 square feet of design and manufacturing facilities located in North Salt Lake, Utah and an additional 30,000 square feet of manufacturing located in South Carolina. Moreover, Companion Systems proudly supports all manufacturing needs for our partner Wingenback, Inc. in the Canadian market. www.companionsystems.com
