Graphic and signage professionals in COMPANION SYSTEMS' Sign Shop prep your artwork for production using the ideal medium that matches both your brand and budget goals. Customer-specific graphic layouts are reproduced using Scotchcal, paint, silkscreening, Edged, and laser-cutting to create an attractive, appealing kiosk, that invites customers, ignites your interactive strategy, and builds your brand.

Acceptable formats for artwork files are Corel Draw (.cdr), Adobe Photoshop (.psd), and JPEG or TIFF at 150 dpi minimum. COMPANION SYSTEMS can receive your artwork via email, ftp or standard mail on Zip, Jaz or CD-ROM media.
